

YieldRank™: Transform Agricultural Lending with AI-Powered Credit Intelligence

Make faster, smarter lending decisions with YieldRank's comprehensive credit scoring model built specifically for farmers and agribusinesses across Africa.

Agri-Lending Challenges

Agricultural lenders struggle to assess farmer creditworthiness due to limited credit histories, slow manual assessments, and poor visibility into climate and seasonal risks, leading to high default rates and missed lending opportunities

The YieldRank™ Solution

YieldRank™ is a forward-looking, AI-powered agricultural credit score that assesses a farmer's ability to produce, sell, and repay by combining agronomic, climate, and market data into a single, explainable risk score (300-850) and band
